PROGRAM SUMMARY

Portrait photography is the most common form of photography and is categorized as an art form that focuses on capturing facial expressions, personality, or the mood of a subject or group using different combinations of composition, background and lighting.

Portraiture offers an artistic representation of a subject's attitude, and is characterized by its unique ability to connect with people.

- To learn how to make the best use of a camera's capabilities and produce perfectly acceptable images.
- To learn the art, elements, techniques, and aesthetics of mono images.
- To discover the techniques and how to achieve maximum effect in creating -360degree photos.
